

Environmental Awareness Guide

- One** Everything is connected to everything else.
- Two** Environmental problems are many, but so too are solutions.
- Three** Environmental, social and economic goals are convergent, not divergent.

Environmental Solutions at the Individual Level:

- Ecological footprint - think globally and act locally
- The three **Rs** of Reduce, Reuse, and Recycle
- Environmental Challenge:
 1. Reduce home energy use by 10%
 2. Choose an energy-efficient home and appliances
 3. Don't use pesticides
 4. Eat meat-free meals one day a week
 5. Buy locally grown and produced food
 6. Choose a fuel-efficient vehicle
 7. Walk, bike, carpool or take public transit
 8. Choose a home close to work or school
 9. Support alternative transportation
 10. Learn more and share with others

Environmental Solutions at the Businesses and Industry Level:

- Sustainable Development
- Pollution Prevention
- Raw Materials Life-Cycle Assessment

This Operational Guide ©2007, rev.2011 **GroupEHS** for those participants having completed the “**Environmental Awareness**” training course. The information contained herein is not intended to represent an exhaustive state of knowledge on the subject matter.
